Attachments: Revised Draft Community Interview Questions - Troy.docx

Importance: High

Shari,

Good afternoon. I am attaching a copy of the Community Interview questions we will be conducting next week for the East Troy Site for your awareness.

In a separate manner, I wanted to tell you that the Chamber of Commerce requested that a representative from Hobart be present at the interviews that we are scheduling with them. Also, an employee for Spinnaker Coatings wanted to schedule an interview. I understand at this point there are no official PRPs for the site, but I wanted to ask you if there were any companies, businesses or people that you would rather not have us interview because of behind the scenes investigation/planning activities that could be taken place.

As of this moment we have not scheduled interviews with Hobart or with Spinnaker Coatings. Please let me know if you rather not have us interview certain companies, businesses or people in the area.

Thanks.

V/r
